## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, "the end of a move", "each non-winning player" and "the round winner's point total" of claim 3, "the characters on their respective wordgrams" in claim 5 lack a proper antecedent. In claim 7 "atop" should be replaced by the term —upon— for consistency. Claim 2 contradicts claim 1 in that claim 1 calls for "ending said game" and claim 2 now calls for "rounds". One solution seems to be to provide more positive recitations to how the steps of claim 2 relate to the previously recited steps of claim 1. Likewise claim 4 contradicts claims 1 and 2. Dependent claims include all the limitation of their previously recited independent claim. In method claims the dependent claims must further limit a previously recited step or provide additional steps to the claimed method. Alternative embodiments that contradict previously recited embodiments that are already previously recited in a previously recited claim may need to be best recited in an independent claim by removing the limitations to the previously recited embodiment so as not to have the limitations to each embodiment contradict the other.

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Putterman, Lawal, Charouhas, Calhoun, Brzezinski and Wohl show word forming games.
